

What Does High Growth Look Like?

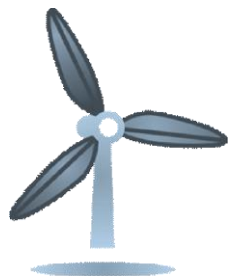

What Does Fast Growth Look Like?

Austin Energy 2025 Goals

55 %

55%
renewable
energy

900

MW

+

950

MW

+

200 MW local
solar, 100 MW
customer-
sited, 10 MW
local storage

All City of
Austin
facilities,
operations
and fleet
carbon
neutral

Subject to Affordability Goals

= \$4.17/mo
100% Wind

Smart Cities EV Next Phase

1. High visibility/mileage adoption (taxi/TNC)
2. City fleet leadership
3. Autonomous EVs
4. Support ladders of opportunity
5. Maximize benefits from emission reduction & affordability
6. Smart integration into the electric grid
7. Targeted marketing campaigns/pilots (multi-family, auto-dealers)
